Aether Antiboss Crack + License Key Full Free

All your files, folders, programs, documents and windows are hidden! With Aether Antiboss you can lock your files, hide your programs and applications, and protect your data! Aether Antiboss has several locking methods: File/Folder Locking (Whole computer): With this method you can lock all your files, folders and

documents at once! Desktop Locking: This method locks your desktop icons, so nobody can view them while the software is running! Exe locking: This is a method for locking any executable program. It can be used to hide any software (e.g. winzip, wordpad, Notepad, etc.) which is not installed in your computer. Aether Antiboss is easy to use, with a very nice and clean interface! After using Aether Antiboss to hide the software and then installing it, it can be used to unlock all of its features with a single hotkey and close all the windows by one button click. So you can still use your computer without any risk of having your files be viewed by malicious software and of losing anything! At the same time, Aether Antiboss does not leave any chance for anyone to access the hidden software! In the case that an attack is made on

your computer by a trojan virus, worm, spyware, etc. - or if someone tries to search your disk - this software can detect the attack and can defend itself against it! In addition, Aether Antiboss can be used to protect any of your personal documents, such as Word or Excel documents, HTML files, images, etc. You can easily lock or hide them using this software! The software is completely customizable, so you can set hotkeys for both hiding and restoring the software windows, and you can easily remove the toolbars! Aether Antiboss can lock any program on the computer at once and, if you need, it can hide even the context menu! You can select individual programs, including their tray icons, you can lock or hide them all at once, or you can lock or hide the whole computer! With this software you can

do many things: 1. Protect your computer against malicious software
Aether Antiboss can detect if the computer is infected with malware, and if so, it will remove it! 2. Hide any executable software
Aether Antiboss can lock any executable software, such as winzip, wordpad,

Aether Antiboss is an ultimate all-in-one anti-prying eyes solution. Not only does it merely hide your files, folders, programs, documents, windows, it doesn't leave a chance for anyone to know that something is being hidden! Using Aether Antiboss you can make

any particular software hidden on your computer and run it without revealing this fact to hostile parties. Aether Antiboss is tool that allows you to close files, windows and applications. With Aether Antiboss all hidden software is invisible on the disk, it cannot be found, viewed, deleted and run by anyone besides you. And there's no need to "unhide" or "unlock" hidden software first to be able to run it! It remains totally invisible but still is able to work! How do you like the idea of having, for example, a chat program on your work computer and be sure that nobody can detect it, even if they will search for it throughout the hard disk? Even when they start your computer in Safe Mode? Moreover, when your hidden software is running, you can completely hide and restore all its windows and even tray icons in just a

second, with a single keypress! To run a hidden program, you also can use customizable hotkeys - and no additional windows will be shown. Besides that, Aether Antiboss can completely hide any of your private documents and files! Just drag-n-drop the folder with these files and documents to the Aether Antiboss window and they all are hidden! Nobody will ever notice that they they exist on your disk! Aether Antiboss can hide individual files as well as whole folders with all their contents, including all subfolders! Features: - Hide any software; files, folders, programs, documents, windows, program tray icons, shortcuts, system tray icons, and more! - New, multiple window interface (Aether Antiboss 2) - Multiple Antiboss modes of operation: full disk, file system, registry, and

CPU usage! - Hide even if the program is started in Safe Mode! - Hide tray icons! - Hide windows with customizable hotkeys - Completely invisible, yet still able to work! - Fast, easy installation - No extra installation required! - No hidden menu to modify! - No extra software required! - And many other features... Ok, here we go... This anti-prying eyes solution is a multi-purpose application. It's not just a program to hide files and folders, programs and documents, it hides almost anything! You can use it to hide files, folders, shortcuts, program icons, startup icons and system tray icons, it hides everything. In one click you can just hide your files and folders (1 click!). And the same with your programs, shortcuts, system tray icons,
